

SAFETY DATA SHEET (SDS)

Section 1. Identification						
Product identifier	Polymeric sand THORAD and Polymeric Stone Dust THORAD					
Other means of identification 440-442-444-446-		440-442-444	4-446-443-445-447			
Recommended use and restrictions on use Construction material, polymeric sand						
Initial supplier identifier Sable Marco, Inc. 26, Chemin de la Pêche, Pont-Rouge, QC, G3H 1C3, Tel. 418-873-4509						
Emergency telephone number/restriction on use			use Canada – CANUTEC 24 hour number 613-996-6666			
Section 2 Hazand identification						

Classification of hazardous product (name of the category or subcategory of the hazard class)

Carcinogenicity (Category 1)

Specific target organ toxicity – repeated exposure (Category 1), Organs

Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)

Skin contact

Eve contact

DANGER

H350 May cause cancer.

H372 Causes damage to organs (lungs) through prolonged or repeated exposure (inhalation).

P201 Obtain special instructions before use. P202 Do not handle until all safety precautions have been read and understood. P260 Do not breathe dusts or mists. P264 Wash hands/nails/face thoroughly after handling. P270 Do not eat, drink or smoke when using this product. P280 Wear gloves/protective clothing/eye protection/face protection. P308 + P313 IF exposed or concerned: Get medical attention. P314 Get medical attention if you feel unwell. P405 Store locked up. P501 Dispose of contents/container into safe container in accordance with local, regional or national regulations

regulations.						
Other hazards l	known None					
Section 3. Composition/information on ingredients						
Chemical name (common name/synonyms)		CAS number or other	Concentration (%)			
Silica-crystalline, Quartz (sand)		14808-60-7	60-100			
Ethylene and vinyl acetate copolymer		24937-78-8	1-5			
Section 4. First-aid measures						
Inhalation	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell.					
Ingestion	IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is					
	rapidly losing consciousness, or is unconscious or convi	alsing. Rinse mouth thoroughly with	water. Have victim drink two glasses			

Most important	symptoms and effects (acute or delayed)	None

Indication of immediate medical attention/special treatment In all cases, call a doctor. Do not forget this document.

of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.

Section 5. Fire-fighting measures

Specific hazards of the hazardous product (hazardous combustion products)

IF ON SKIN: Wash with plenty of water.

IF IN EYES, Rinse cautiously with water for several minutes.

Carbon oxides and other irritant/toxic gases and fumes.

Suitable and unsuitable extinguishing media

In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.

Special protective equipment and precautions for fire-fighters

During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).

Methods and materials for containment and cleaning up

Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.

Section 7. Handling and storage

Precautions for safe handling

Wear gloves/protective clothing/eye protection/face protection.

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

Section 8. Exposure controls/Personal protection

Control parameters (biological limit values or exposure limit values and source of those values)

Exposure limits: CAS 14808-60-7 ACGIH – TLV-TWA 0.025 mg/m³ (respirable particles) & PEL-TWA 10 mg/m³ (respirable particles) & 30 mg/m³ (total dust);

Appropriate engineering controls

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

Section 9. Physical and chemical properties						
Appearance, physical state/colour Gray-brown solid	Vapour pressure Not available					
Odour Mild	Vapour density Not available					
Odour threshold Not available	Relative density Not available					
pH 6.5-8.5	Solubility Insoluble					
Melting/freezing point Not available	Partition coefficient - n-octanol/water Not available					
Initial boiling point/range Not available	Auto-ignition temperature Not available					
Flash point Not available	Decomposition temperature Not available					
Evaporation rate Not available	Viscosity Not available					
Flammability (solids and gases) Not available	VOC Not available					
Upper and lower flammability/explosive limits Not available	Other None known					

Section 10. Stability and reactivity

Reactivity

Does not react under the recommended storage and handling conditions prescribed.

Chemical stability

Stable under the recommended storage and handling conditions prescribed.

Possibility of hazardous reactions

None

Conditions to avoid (static discharge, shock or vibration)

None

Incompatible materials

None

Hazardous decomposition products

None known

Section 11. Toxicological information

Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)

May cause cancer. Causes damage to organs (lungs) through prolonged or repeated exposure (inhalation).

Symptoms related to the physical, chemical and toxicological characteristics

None

$\label{lem:constraint} \textbf{Delayed and immediate effects (chronic effects from short-term and long-term exposure)}$

Skin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity – Yes, possible according to IARC, ACGIH, NTP or OSHA; Reproductive Toxicity – No data available; Specific Target Organ Toxicity — Single Exposure – No data available; Specific Target Organ Toxicity — Repeated Exposure – Possible; Aspiration Hazard – No data available; Health Hazards Not Otherwise Classified – No data available.

Numerical measures of toxicity (ATE; LD₅₀ & LC₅₀)

None

ATE not available in this document.

	Section 12. Ecological information				
Ecotoxicity (aqu	Ecotoxicity (aquatic and terrestrial information)				
No data availabl	No data available for this product.				
Persistence and degradability No data available					
Bioaccumulativ	re potential No bioaccumulation is to be expected.				
Mobility in soil	No data available				
Other adverse of	effects No data available				
	Section 13. Disposal considerations				
Information on	safe handling for disposal/methods of disposal/contaminated packaging				
Dispose of conte	ents/container into safe container in accordance with local, regional or national regulations.				
_	Section 14. Transport information				
UN number; Pr	oper shipping name; Class(es); Packing group (PG) of the TDG/49 CFR Regulations				
NOT REGULAT					
	roper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)				
NOT REGULAT					
UN number: Pr	roper shipping name; Class(es); Packing group (PG) of the IATA (air)				
NOT REGULAT					
	ions (transport/conveyance) None				
	hazards (IMDG or other) None				
	(usually more than 450 L in capacity) Possible				
•	Section 15. Regulatory information				
Safety/health C	anadian regulations specifics Refer to Section 2 for the appropriate classification. This product has been classified in				
Sarcty/nearth C	accordance with the hazard criteria of the Hazardous Products Regulations (HPR).				
Environmental	Canadian regulations specifics Ingredient(s) of the DSL				
	nvironmental outside regulations specifics None
